

# MEDICINE WHEEL MODEL TO NATURAL HORSEMANSHIP®

PRESENTED BY  
PHILLIP WHITEMAN, JR.

## in the circle of life, we are all connected

The return of the horse brought change, transformation, and healing to the Native Nations. The Medicine Wheel Model to Natural Horsemanship inherits this ancient tradition and natural spiritual connection to the Horse Nation and presents these culturally rich gifts in a modern, sensitive and powerful way. Through traditional story telling, Native flute music, the drum and dance, cultural bridges and respect for diversity are created, not only for humans, but for all our relations. The concepts of 'circular thinking' and 'energetic mirroring' will expand communication skills far beyond the restrictions of 'modern linear thinking'.

There will be a demonstration with Sioux Boy, a stunning overo paint, and with an untrained colt using The Medicine Wheel Model.

Phillip, a Northern Cheyenne from Lame Deer, Montana, is a nationally-known, storyteller, horse-trainer and champion grass dancer. ([medicinewheelmodel.com](http://medicinewheelmodel.com))
